

echnical data	Symbol F	Ratings:		1	H.		III	Unit
Rated operational voltage	Ue			1000	800		500	V do
Rated operational current	le			20	30		45	A do
Required fine wire cross-section		4,0	6,0		10,0	mm²		
*IEC60947-1, table 9								
Number of DC poles							4	
Utilization category DC DC-216								
Pollution degree							2	
IP rating terminals							IP20	
Tightening torque terminal screv	ws M4 (min n	iax.)			1,5	_	1,7	Nm
Method of mounting								
IP rating of the shaft in case of si	ngle hole and	four hole p	anel mounting				IP65	
Positions			12 (OFF) a	and 3 o'clock (Of	۷)			
Actuator Standard A knob with long screw to fix in shaft								
Method of operation			Independ	ent manual oper	ration			
Actuator operation force (max.)							1,4	Nm
Tightening torque M3 screw in t	he actuator (m	in max.)			0,2	-	0,4	Nm
Rated impulse withstand voltage	2		Uimp				8	kV
Insulation voltage			Ui				1000	V
Rated thermal current uninterru	pted duty		lu				45	Α
Rated short-time withstand curr	ent (1s)		lcw				700	Α
Rated short-circuit making capac	city		Icm				1,4	kA
Rated conditional short-circuit c	urrent		Isc				5	kA
		\\\ D*'		404				
Minimum required dimensions of				124	x 47	Х	71	mm
* see the drawing for the height of the switch. The number of layers N is:							4	
Weight							. 211	g
Allowed ambient temperature (T _{ambient}		-40	_	70	°C
Allowed storage temperature (n			T _{storage}		-40	-	85	°C
Relative humidity (max.), witho	ut condensatio	n at 20°C	RH				90	%

Mounting instructions

In the application all ratings according to the datasheet have to be respected. After mounting, the wiring must be checked and the switch must operate smoothly. When building the switch in an enclosure, the space envelope must be respected according to the applicable standards.

Maintenance

The X type switches are designed for a very long life but it is advised to do some simple yearly maintenance.

- Check the installation for signs of overload or overheating. The terminals may not exceed the limit of 85oC $\,$ under full
- By operating the switch a few times (5x) the contacts will clean themselves and the switch will have a longer life.

Connection

The terminals, can take copper wires up to 6 mm2. The recommended Spade Tongue Terminals may have a maximum width of 9 mm (see table for recommendations)
